Our limited exposure to capital risk makes us less volatile during bearish periods such as the one experienced in 2021. However, we secured a new office location under a two-year lease in Autumn 2020. We included it in our statement of Financial position in September 2021. Our Intangibles only include copyright and its value is reviewed at the end of each year.

# Group Performance during the year ending March 2021

## ■ UK PERFORMANCE

The Group has had its worst year since incorporation. That, however, was the result of significant investments in the apparatus under which the business operates and the implementation of Environmental Accounting Policies which had driven down the overall operating profit of the business.

## ■ OVERSEAS PERFORMANCE

The Group has gained knowledge and presence in Italian tax, consultancy and exports. Our team strictly and regularly monitors public and private IT systems set aside by local Agenzia delle Entrate, Agenzia delle Entrate and INPS website and the Italian Consulate in London.
